- Available in black, green and pink.

Conceived by a young Spanish designer, Eduard Ramon, the 'my' watch range reflects Eduard's love of colour, women and the sunshine of Catalunya.

'my' watches are the perfect accessory to any outfit. Select from over 30 ranges in more than 50 colours to find a watch for every occasion. Why not treat yourself to several colours of the same watch, for day - or evening-wear?

Every girl loves a bit of glamour, and 'my' watches are no different. We use Czecho stones to glam it up. Similar in quality to Swarovski stones, Czecho stones are made in the Czech Republic (Swarovski is Austrian).

'my' watches feature the very best in quality Japanese movement (the inner workings). Watch backs are made from durable non-allergenic stainless steel. Strap styles vary, including leather, calf, PVC and canvas.

Each watch comes with a spare battery and a stylish black presentation case with pillow.
