Chan Luu's Easy Summer Scarves

Summertime scarves might seem like a contradiction in terms, until it becomes clear that these lightweight knits do a lot more than ward off the cold. A summer scarf can serve as the greatest accessory. Effortless and care free, it embodies everything we all love most about summer.

[Chan Luu's newest collection of summer scarves](#) makes it easy to keep cool all summer long whilst still bringing the heat. The question isn't which color you should buy (one of each!) but how many times you can wear the same scarf without duplicating styles.

These fashionable ladies, Jessica Alba, Nicole Richie and Sarah Jessica Parker, show us three styles that are made to suit any summer scarf. Jessica Alba picked a light pink scarf to pair with a simple white tee. She nailed the look by wearing her scarf like a big creamy necklace and maintaining all other accessories to a bare minimum. Meanwhile, Nicole Richie hardly gave her red skull scarf a second notion. The bright bit of fabric tossed easily round her neck works to draw interest without complicating her bohemian attitude. Sarah Jessica Parker, the supreme style icon, chose to have fun with contrasting patterns when she paired a light gray paisley scarf with an equally stylish oversized striped bag. The look is casual yet hard to miss and completely in sync.
