Designing Your Virtual Jewelry Online

If an idea in your mind pops unexpectedly and you have no materials at hand to immediately create a [handmade jewellery](#), the virtual jewelry design is definitely a good option. Most jewelers dream of creating or making a jewelry made of Swarovski and other expensive crystals. With the Swarovski virtual bead jewelry design tool there is no need for you to shell out big amount of money to do a Swarovski jewelry. This tool is hosted by the 'create your style with Swarovski' web site. You can find lots of information about the product and the company behind on the website if you want to know more about it.

The virtual bead board tool is very simple to use but does require FLASH in order to work properly. This virtual design tool is a far user-friendly as compared to the other virtual tools available. All you have to do is go to the website and look under the design tool section. There is a link to start the tool listed underneath the brief instructions.

You can easily undo your actions if you aren't satisfied with your recent design or you made a mistake. You can choose from the selections of beads on the left side of the panel and just customize it with the shape size and color that you like. Beads can be placed in a line, circle, or even individually to allow numerous creations. If you don't want to start from scratch it is possible to preload a template which contains hundreds of Swarovski beads but they have a downfall of being very complex. With this virtual design tool you can easily print or save your design once you're done with it.

But of course this tool also has flaws on its own. Simplicity has its own advantages and disadvantages. Since you are doing your design online it does not have the power to connect the beads together with the use of a string or wire so beads will just float in space. If you are just making a piece of jewelry with beads it works but for more complex pieces you may find that it is lacking. You also can't place beads that aren't crystals for spacers. The site however only has a few variations of crystal types which only include two pendants four shapes and one type of pearl.

Never allow those few disadvantages to stop you from enjoying the virtual jewelry design tool. This tool is not only fun to use it could also help exercise your creativity. This tool costs very little and easy-going most especially for people who may not have the luxury of time and financial resources to actually see a genuine Swarovski crystals. The information was given by a consultant of how to better [make up](#) and he's also started his business in [Wellington flowers](#).
