Skagen Designs, Ltd. is the watch company that is responsible for [Skagen women's watches](#). Created in the year 1989, this watch company has headquarters in both Europe and Reno, Nevada. Henrik and Charlotte Jorst were to Denmark natives who came to the United States with a vision for watches that surpassed the competition. With both quartz and automatic movements, their watches soon became a hit all over the world. Besides their watches, the Skagen line of jewelry soon became popular as well. Everything from earrings and bracelets to pendants to sunglasses are available from the Skagen line.

Skagen watches are analog watches. Among the best watches offered by the company is the Silver Link with Second Hand. It is made of stainless steel. This piece has a round extra large case. The case is approximately 6.5 millimeters thick. The case is plated with silver. The band is made of links and has a deployment clasp. The crystal type of this wristwatch is made of mineral. The crystals in the watch is embedded in a curve way.

The Swiss Movement for Men is a stainless steel multifunction watch. The Swiss Movement watch features silver metal plating and a black leather band with a buckle clasp. The dial is chrome and contains a second hand and multifunction dials.

The Brown Leather Steel watch has a S10 round steel case as well as a special dual time zone feature. A beautiful blue color comprises the dial, which is surrounded by a shining silver plated case. The band is made of genuine leather and features a buckle clasp. The Swiss Movement Chronograph watch is another unique style with a black leather strap and a shiny gold dial.

There are also watches offered for women. The Glitzy Links steel analog watch has a face lined with glitz. The band is composed of silver plated steel links and has a deployment clasp. The case is stainless steel and is in the shape of a rectangle. This watch does not have a second hand or date function. The Light Blue Glitz analog watch for women is characterized by a silver steel mesh band and blue mother of pearl dial. The case is small and round steel with silver plating. The crystal type for the watch is flat mineral.

The Dual Time Zone functionality available in some watches make them a handy tool for those who are always on the move. Although there is no date function, there is an extra large round steel case and a mesh band made of silver plated steel. The second hand is located on the chrome dial.

There are hundreds of [Skagen mens watch](#) collections for you to choose from. Men and women are both able to choose from the many watches that Skagen offers. Get the [mens watch](#) to match your personality and style only at Skagen.
